

Author Index, Volumes 38–41

- Abrol, I.P.
Sustaining rice–wheat system productivity in the Indo-Gangetic plains: water management-related issues 40 (1999) 31
- Abu-Awwad, A.M.
Irrigation management in arid areas affected by surface crust 38 (1999) 21
- Adam, H.S., *see* Ibrahim, A.A. et al.
- Adeeb, A.M., *see* Ibrahim, A.A. et al.
- Alazba, A.A.
Dimensionless advance curves for infiltration families 41 (1999) 115
- Allan, T.
Productive efficiency and allocative efficiency: why better water management may not solve the problem 40 (1999) 71
- Barth, H.K.
Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283
- Basch, G., *see* Carvalho, M.
- Batchelor, C. and J. Cain
Application of belief networks to water management studies. 40 (1999) 51
- Batchelor, C.
Improving water use efficiency as part of integrated catchment management 40 (1999) 249
- Beltrán, J.M.
Irrigation with saline water: benefits and environmental impact. 40 (1999) 183
- Benyon, R.G., *see* Snow, V.O. et al.
- Benyon, R.G., N.E. Marcar, D.F. Crawford and A.T. Nicholson
Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia. 39 (1999) 229
- Bhuiyan, S.I., *see* Tuong, T.P.
- Bohra, D.N., *see* Sharma, K.D. et al.
- Boldt, A.L., D.E. Eisenhauer, D. L. Martin and G.J. Wilmes
Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235
- Bond, W.J., *see* Snow, V.O. et al.
- Brasa Ramos, A., *see* de Santa Olalla Mañas, F.M et al.
- Brasa, A., *see* Montero, F.J. et al.
- Brito de Azevedo, E., L. Santos Pereira and B. Itier
Modelling the local climate in island environments: water balance applications 40 (1999) 393
- Brown, D.
Annex 1: Water-use efficiency on irrigation systems: a review of research carried out under DFID' engineering research programme 40 (1999) 139
- Bruckler, L., *see* Maraux, F. et al.
- Burke, S., M. Mulligan and J.B. Thornes
Optimal irrigation efficiency for maximum plant productivity and minimum water loss . . 40 (1999) 377

- Burton, M.A., D. Kivumbi and K. El-Askari
 Opportunities and constraints to improving irrigation water management: Foci for research. 40 (1999) 37
- Cain, J., *see* Batchelor, C.
- Calera Belmonte, A., J. Medrano González, A. Vela and S. Castaño Fernández
 GIS tools applied to the sustainable management of water resources. Application to the
 aquifer system 08-29 40 (1999) 207
- Campos, C., *see* Oron, G. et al.
- Carrión, P., *see* de Juan, J.A. et al.
- Carter, R., M. Kay and K. Weatherhead
 Water losses in smallholder irrigation schemes 40 (1999) 15
- Carvalho, M. and G. Basch
 Efficient use of water in the southern region of Portugal: agronomic aspects 40 (1999) 275
- Castaño Fernández, S., *see* Calera Belmonte, A. et al.
- Castellanos, A., *see* Utset, A.
- Chattopadhyay, A., *see* Tiwari, K.N. et al.
- Collopy, J.J., *see* Morris, J.D.
- Cook, F.J., *see* Stirzaker, R.J. et al.
- Corbeels, M., G. Hofman and O. Van Cleemput
 Analysis of water use by wheat grown on a cracking clay soil in a semi-arid
 Mediterranean environment: weather and nitrogen effects 38 (1999) 147
- Cramer, V.A., P.J. Thorburn and G.W. Fraser
 Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and
Eucalyptus camaldulensis in saline areas of southeast Queensland, Australia 39 (1999) 187
- Crawford, D.F., *see* Benyon, R.G. et al.
- Cuesta, A., *see* Montero, F.J. et al.
- D'Urso, G., M. Menenti and A. Santini
 Regional application of one-dimensional water flow models for irrigation management 40 (1999) 291
- Dalvi, V.B., K.N. Tiwari, M.N. Pawade and P.S. Phirke
 Response surface analysis of tomato production under microirrigation 41 (1999) 11
- David, I., *see* Oron, G. et al.
- Dawes, W.R., *see* Slavich, P.G. et al.
- Dawes, W.R., *see* Zhang, L. et al.
- De Bruin, H.A.R., *see* Stewart, J.B. et al.
- de Juan, J.A., J.M. Tarjuelo, J.F. Ortega, M. Valiente and P. Carrión
 Management of water consumption in agriculture A model for the economic optimisation
 of water use application to a sub-humid area 40 (1999) 303
- de Santa Olalla Mañas, F.M., A. Brasa Ramos, C. Fabeiro Cortés, D. Fernández González
 and H. López Córcoles
 Improvement of irrigation management towards the sustainable use of groundwater in
 Castilla-La Mancha, Spain 40 (1999) 195
- de Sousa, P.L., L.L. Silva and R.P. Serralheiro
 Comparative analysis of main on-farm irrigation systems in Portugal. 40 (1999) 341
- DeMalach, Y., *see* Oron, G. et al.

 Growth and ground water uptake responses of lucerne to changes in groundwater levels and salinity: lysimeter, isotope and modelling studies 39 (1999) 265

Subject Index, Volumes 38–41

A small community

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Adoption

Opportunities and constraints to improving irrigation water management: Foci for research 40 (1999) 37

Advective process

Modelling the local climate in island environments: water balance applications 40 (1999) 393

Agricultural diversification

Water management in raised bed systems: a case study from the Chao Phraya delta, Thailand 39 (1999) 1

Agricultural runoff

Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77

Agriculture

Priorities for irrigated agriculture 40 (1999) 25

Agroforestry

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Where to plant trees on cropping land for control of dryland salinity: some approximate solutions 39 (1999) 115

Agrometeorological networks

Transfer of irrigation scheduling technology in Mexico 40 (1999) 333

Allocate/economic efficiency

Productive efficiency and allocative efficiency: why better water management may not solve the problem 40 (1999) 71

Arid

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Atriplex

Water use of grazed salt bush plantations with saline watertable 39 (1999) 169

Bayesian statistics

Application of belief networks to water management studies 40 (1999) 51

Belief networks

Application of belief networks to water management studies 40 (1999) 51

Benefit–cost analysis

Response of okra (*Abelmoschus esculentus* (L.) Moench.) to drip irrigation under mulch and non-mulch conditions 38 (1999) 91

Blocked-end furrows

Irrigation management in arid areas affected by surface crust 38 (1999) 21

Border and furrow irrigation

Assessment of the performance of border and furrow irrigation systems and the relationship between performance indicators and system variables 40 (1999) 353

Border irrigation

Dimensionless advance curves for infiltration families 41 (1999) 115

Canopy temperature

Assessment of plant-extractable soil water in castor beans (*Ricinus communis* L.) using infrared thermometry 39 (1999) 69

Castor beans (*Ricinus communis* L.)

Assessment of plant-extractable soil water in castor beans (*Ricinus communis* L.) using infrared thermometry 39 (1999) 69

Centralized and decentralized systems

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Centre pivot

Analysis of uniformity of sprinkle irrigation in a semi-arid area 40 (1999) 315

Chao Phraya delta

Water management in raised bed systems: a case study from the Chao Phraya delta, Thailand 39 (1999) 1

Climatic uncertainty

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Climatic variables

Modelling the local climate in island environments: water balance applications 40 (1999) 393

Coconut

Preliminary requirements to design a suitable drip irrigation system for coconut (*Cocos nucifera* L.) in gravelly soils 38 (1999) 169

Computer optimisation

Computer optimisation for better water allocation 40 (1999) 65

Computer program

Irrigation water prices for farmer-managed irrigation systems in Tanzania: a case study of Lower Moshi irrigation scheme 38 (1999) 33

Computer simulation

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Computer vision

Modified rainfall simulator infiltrometer for infiltration, runoff and erosion studies 41 (1999) 167

Conservation tillage

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Cost-benefit analysis

Comparative analysis of main on-farm irrigation systems in Portugal 40 (1999) 341

Crop production function

Model for assessing impact of salinity on soil water availability and crop yield 41 (1999) 57

Crop rotation

Efficient use of water in the southern region of Portugal: agronomic aspects 40 (1999) 275

Crop water stress

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Water-yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Crop water use efficiency

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Crop yield

Hydrological modelling of a small watershed using MIKE SHE for irrigation planning 41 (1999) 149

Modeling crop yield as affected by uniformity of sprinkler irrigation system 38 (1999) 135

Cropping systems

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Demand management

Economic instruments for improving water use efficiency: theory and practice 40 (1999) 77

Development

Assessment of vine development according to available water resources by using remote sensing in La Mancha, Spain 40 (1999) 363

DFID

Annex 1: Water-use efficiency on irrigation systems: a review of research carried out under DFID' engineering research programme 40 (1999) 139

Dimensionless advance curves

Dimensionless advance curves for infiltration families 41 (1999) 115

Discharge efficiency

Analysis of uniformity of sprinkle irrigation in a semi-arid area 40 (1999) 315

Discharge uniformity

Discharge characteristics of a porous pipe microirrigation lateral 38 (1999) 123

Discharge

Interactions between trees and groundwaters in recharge and discharge areas - A survey of Western Australian sites 39 (1999) 91

Discourse

Productive efficiency and allocative efficiency: why better water management may not solve the problem 40 (1999) 71

Disposal

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Dissemination

Opportunities and constraints to improving irrigation water management: Foci for research 40 (1999) 37

Drainage

Drainage effects on spatial variability of soil electrical conductivity in a vertisol 38 (1999) 213

Irrigation with saline water: benefits and environmental impact 40 (1999) 183

Modelling the water balance of effluent-irrigated trees 39 (1999) 47

Where to plant trees on cropping land for control of dryland salinity: some approximate solutions 39 (1999) 115

Drip irrigation

Response of okra (*Abelmoschus esculentus* (L.) Moench.) to drip irrigation under mulch and non-mulch conditions 38 (1999) 91

Response surface analysis of tomato production under microirrigation 41 (1999) 11

Drought

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Dryland salinity

Interactions between trees and groundwaters in recharge and discharge areas - A survey of Western Australian sites 39 (1999) 91

Economic instruments

Economic instruments for improving water use efficiency: theory and practice 40 (1999) 77

Economic theory

Economic instruments for improving water use efficiency: theory and practice 40 (1999) 77

Economical optimisation

Management of water consumption in agriculture A model for the economic optimisation of water use application to a sub-humid area 40 (1999) 303

Economics

Water-yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Effective root zone

Preliminary requirements to design a suitable drip irrigation system for coconut (*Cocos nucifera* L.) in gravelly soils 38 (1999) 169

Efficiency

Water losses in smallholder irrigation schemes 40 (1999) 15

Effluent-irrigated plantations

Modelling the water balance of effluent-irrigated trees 39 (1999) 47

Effluent

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Emission pattern

Discharge characteristics of a porous pipe microirrigation lateral 38 (1999) 123

Environmental impacts

Irrigated agriculture in the Guadiana River high basin (Castilla-La Mancha, Spain): environmental and socioeconomic impacts 40 (1999) 171

Eucalyptus

A flood history weighted index of average root-zone salinity for assessing flood impacts on health of vegetation on a saline floodplain 39 (1999) 135

Dynamics of *Eucalyptus largiflorens* growth and water use in response to modified watertable and flooding regimes on a saline floodplain 39 (1999) 245

Eucalyptus camaldulensis

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Eucalyptus occidentalis

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Eutrophication

Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77

Evaporation

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Use of satellite data to estimate radiation and evaporation for northwest Mexico 38 (1999) 181

Water use and plant response in two rice irrigation methods 39 (1999) 35

Evapotranspiration

Water use and plant response in two rice irrigation methods 39 (1999) 35

Farmers and municipality collaboration

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Fertigation

Response surface analysis of tomato production under microirrigation 41 (1999) 11

Fertilizer

Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77

Flood

A flood history weighted index of average root-zone salinity for assessing flood impacts on health of vegetation on a saline floodplain 39 (1999) 135

Floodplain

Dynamics of *Eucalyptus largiflorens* growth and water use in response to modified watertable and flooding regimes on a saline floodplain 39 (1999) 245

Flow rate

Preliminary requirements to design a suitable drip irrigation system for coconut (*Cocos nucifera* L.) in gravelly soils 38 (1999) 169

Flow regulation

The failure of adjustable irrigation technology, the options for change and the consequences for research 40 (1999) 101

Foehn

Modelling the local climate in island environments: water balance applications 40 (1999) 393

Functional

Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1

Furrow irrigation

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Geostatistics

Drainage effects on spatial variability of soil electrical conductivity in a vertisol 38 (1999) 213

Geostatistics

Regional analysis of irrigation water requirements using kriging. Application to potato crop (*Solanum tuberosum* L.) at Trás-os-Montes 40 (1999) 221

Gezira

On-farm sampling density and correction requirements for soil moisture determination in irrigated heavy clay soils in the Gezira, central Sudan 41 (1999) 91

GIS

GIS tools applied to the sustainable management of water resources. Application to the aquifer system 08-29 40 (1999) 207

Regional application of one-dimensional water flow models for irrigation management 40 (1999) 291

Ground water

The impact of agriculture on ground water quality in Slovenia: standards and strategy 40 (1999) 235

Groundwater aspects: losses are inevitable but re-use is possible? 40 (1999) 111

Interactions between trees and groundwaters in recharge and discharge areas - A survey of Western Australian sites 39 (1999) 91

Water use of grazed salt bush plantations with saline watertable 39 (1999) 169

Groundwater discharge

Water use and salt accumulation by *Eucalyptus camaldulensis* and *Casuarina cunninghamiana* on a site with shallow saline groundwater 39 (1999) 205

Groundwater uptake

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Growth

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Guadiana River high basin - Spain

Irrigated agriculture in the Guadiana River high basin (Castilla-La Mancha, Spain): environmental and socioeconomic impacts 40 (1999) 171

²H

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Hydrological simulation model

Regional application of one-dimensional water flow models for irrigation management 40 (1999) 291

Hydrology model

Optimal irrigation efficiency for maximum plant productivity and minimum water loss 40 (1999) 377

Hydrology

Where to plant trees on cropping land for control of dryland salinity: some approximate solutions 39 (1999) 115

Image processing

Modified rainfall simulator infiltrometer for infiltration, runoff and erosion studies 41 (1999) 167

India

Regional salt- and water-balance modelling for sustainable irrigated agriculture 40 (1999) 129

Indo-Gangetic plains

Sustaining rice-wheat system productivity in the Indo-Gangetic plains: water management-related issues 40 (1999) 31

Infiltration

Modified rainfall simulator infiltrometer for infiltration, runoff and erosion studies 41 (1999) 167

Integrated catchment management

Improving water use efficiency as part of integrated catchment management 40 (1999) 249

Irrigated agriculture

Irrigated agriculture in the Guadiana River high basin (Castilla-La Mancha, Spain): environmental and socioeconomic impacts 40 (1999) 171

Irrigation Advisory Service

Improvement of irrigation management towards the sustainable use of groundwater in Castilla-La Mancha, Spain 40 (1999) 195

Irrigation efficiency

Higher performance through combined improvements in irrigation methods and scheduling: a discussion 40 (1999) 153

Optimal irrigation efficiency for maximum plant productivity and minimum water loss 40 (1999) 377

The IWMI water resources paradigm – definitions and implications 40 (1999) 45

Transfer of irrigation scheduling technology in Mexico 40 (1999) 333

Use of low-pressure pipe systems for greater efficiency 40 (1999) 107

Irrigation farming

Management of water consumption in agriculture A model for the economic optimisation of water use application to a sub-humid area 40 (1999) 303

Irrigation frequency

Preliminary requirements to design a suitable drip irrigation system for coconut (*Cocos nucifera* L.) in gravelly soils 38 (1999) 169

Response surface analysis of tomato production under microirrigation 41 (1999) 11

Irrigation management

Improvement of irrigation management towards the sustainable use of groundwater in Castilla-La Mancha, Spain 40 (1999) 195

The IWMI water resources paradigm – definitions and implications 40 (1999) 45

Irrigation methods

Higher performance through combined improvements in irrigation methods and scheduling: a discussion 40 (1999) 153

Irrigation performance

The IWMI water resources paradigm – definitions and implications 40 (1999) 45

Irrigation planning

Computer optimisation for better water allocation 40 (1999) 65

Hydrological modelling of a small watershed using MIKE SHE for irrigation planning 41 (1999) 149

Irrigation requirements

Response surface analysis of tomato production under microirrigation 41 (1999) 11

Improvement of irrigation management towards the sustainable use of groundwater in Castilla-La Mancha, Spain 40 (1999) 195

Regional analysis of irrigation water requirements using kriging. Application to potato crop (*Solanum tuberosum* L.) at Trás-os-Montes 40 (1999) 221

Irrigation return flows

Irrigation with saline water: benefits and environmental impact 40 (1999) 183

Irrigation scheduling

Higher performance through combined improvements in irrigation methods and scheduling: a discussion 40 (1999) 153

Transfer of irrigation scheduling technology in Mexico 40 (1999) 333

Water–yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Improvement of irrigation management towards the sustainable use of groundwater in Castilla-La Mancha, Spain 40 (1999) 195

Irrigation systems

Comparative analysis of main on-farm irrigation systems in Portugal 40 (1999) 341

Higher performance through combined improvements in irrigation methods and scheduling: a discussion 40 (1999) 153

Irrigation water management

Opportunities and constraints to improving irrigation water management: Foci for research 40 (1999) 37

Irrigation water price

Irrigation water prices for farmer-managed irrigation systems in Tanzania: a case study of Lower Moshi irrigation scheme 38 (1999) 33

Irrigation-system performance

Limitations of water-control technology 40 (1999) 95

Irrigation

A simple visual aid for sugarcane irrigation scheduling 38 (1999) 77

GIS tools applied to the sustainable management of water resources. Application to the aquifer system 08-29 40 (1999) 207

Modeling crop yield as affected by uniformity of sprinkler irrigation system 38 (1999) 135

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Priorities for irrigated agriculture 40 (1999) 25

Real time operation of reservoir based canal irrigation systems 38 (1999) 103

Sustaining rice-wheat system productivity in the Indo-Gangetic plains: water management-related issues 40 (1999) 31

The failure of adjustable irrigation technology, the options for change and the consequences for research 40 (1999) 101

Use of low-pressure pipe systems for greater efficiency 40 (1999) 107

Water losses in smallholder irrigation schemes 40 (1999) 15

Water use efficiency of controlled alternate irrigation on root-divided maize plants 38 (1999) 69

Juice quality

Performance of sugarcane genotypes grown under sodic soil and water conditions 41 (1999) 1

Jujube

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Kriging

Regional analysis of irrigation water requirements using kriging. Application to potato crop (*Solanum tuberosum* L.) at Trás-os-Montes 40 (1999) 221

Leaching

Irrigation with saline water: benefits and environmental impact 40 (1999) 183

Modelling the water balance of effluent-irrigated trees 39 (1999) 47

Leaf area

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Leaf area:Sapwood area ratio

Water use and salt accumulation by *Eucalyptus camaldulensis* and *Casuarina cunninghamiana* on a site with shallow saline groundwater 39 (1999) 205

Leaf-water potential

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Limited irrigation

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Low-pressure pipe systems

Use of low-pressure pipe systems for greater efficiency 40 (1999) 107

Maize (*Zea mays*)

Water use efficiency of controlled alternate irrigation on root-divided maize plants 38 (1999) 69

Maize yield

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Making decision help

Management of water consumption in agriculture A model for the economic optimisation of water use application to a sub-humid area 40 (1999) 303

Malawi

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Management modeling

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Mangroves

Developing procedures for the sustainable use of mangrove systems 40 (1999) 59

Manure

Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77

Mechanistic

Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1

Mediterranean

Water-yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Mexico

Use of satellite data to estimate radiation and evaporation for northwest Mexico 38 (1999) 181

Micro-catchments

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Microirrigation lateral

Discharge characteristics of a porous pipe microirrigation lateral 38 (1999) 123

Model comparison

Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1

Model

A flood history weighted index of average root-zone salinity for assessing flood impacts on health of vegetation on a saline floodplain 39 (1999) 135

Dynamics of *Eucalyptus largiflorens* growth and water use in response to modified watertable and flooding regimes on a saline floodplain 39 (1999) 245

Modeling crop yield as affected by uniformity of sprinkler irrigation system 38 (1999) 135

Modeling

Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1

Modelling

Developing procedures for the sustainable use of mangrove systems 40 (1999) 59

Real time operation of reservoir based canal irrigation systems 38 (1999) 103

Regional salt- and water-balance modelling for sustainable irrigated agriculture 40 (1999) 129

Mulching

Response of okra (*Abelmoschus esculentus* (L.) Moench.) to drip irrigation under mulch and non-mulch conditions 38 (1999) 91

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Network

Blue node concept: a regional water management strategy 40 (1999) 265

Neutron probe

On-farm sampling density and correction requirements for soil moisture determination in irrigated heavy clay soils in the Gezira, central Sudan 41 (1999) 91

Nitrate

The impact of agriculture on ground water quality in Slovenia: standards and strategy 40 (1999) 235

Nitrogen fertilisation

Efficient use of water in the southern region of Portugal: agronomic aspects 40 (1999) 275

Nitrogen

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Non-point pollution

Blue node concept: a regional water management strategy 40 (1999) 265

Nonpoint source pollution

Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77

Normalized stress degree days

Assessment of plant-extractable soil water in castor beans (*Ricinus communis* L.) using infrared thermometry 39 (1999) 69

¹⁸O

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Okra

Response of okra (*Abelmoschus esculentus* (L.) Moench.) to drip irrigation under mulch and non-mulch conditions 38 (1999) 91

On-farm irrigation

Comparative analysis of main on-farm irrigation systems in Portugal 40 (1999) 341

Optimum wetting pattern

Preliminary requirements to design a suitable drip irrigation system for coconut (*Cocos nucifera* L.) in gravelly soils 38 (1999) 169

Osmotic adjustment

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Participatory irrigation management

Water users organisations 40 (1999) 83

Pear orchard

Improved saline-water use under subsurface drip irrigation 39 (1999) 19

Penman-Monteith equation

Modelling the water balance of effluent-irrigated trees 39 (1999) 47

Performance indices

Assessment of the performance of border and furrow irrigation systems and the relationship between performance indicators and system variables 40 (1999) 353

Performance terms

Assessment of the performance of border and furrow irrigation systems and the relationship between performance indicators and system variables 40 (1999) 353

Permanent solid set

Analysis of uniformity of sprinkle irrigation in a semi-arid area 40 (1999) 315

Planning

Blue node concept: a regional water management strategy 40 (1999) 265

Plant-extractable soil water

Assessment of plant-extractable soil water in castor beans (*Ricinus communis* L.) using infrared thermometry 39 (1999) 69

Plantation growth

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Polder

Water management in raised bed systems: a case study from the Chao Phraya delta, Thailand 39 (1999) 1

Political prices

Productive efficiency and allocative efficiency: why better water management may not solve the problem 40 (1999) 71

Pollution

The impact of agriculture on ground water quality in Slovenia: standards and strategy 40 (1999) 235

Porous pipe

Discharge characteristics of a porous pipe microirrigation lateral 38 (1999) 123

Potato crop

Regional analysis of irrigation water requirements using kriging. Application to potato crop (*Solanum tuberosum* L.) at Trás-os-Montes 40 (1999) 221

Productive/technical efficiency

Productive efficiency and allocative efficiency: why better water management may not solve the problem 40 (1999) 71

Productivity

Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283

Radiation

Use of satellite data to estimate radiation and evaporation for northwest Mexico 38 (1999) 181

Radiative process

Modelling the local climate in island environments: water balance applications 40 (1999) 393

Raindrop size

Modified rainfall simulator infiltrometer for infiltration, runoff and erosion studies 41 (1999) 167

Rainfall excess

Rainwater, soil and nutrient conservation in rainfed rice lands in Eastern India 38 (1999) 45

Rainfall simulator

Modified rainfall simulator infiltrometer for infiltration, runoff and erosion studies 41 (1999) 167

Rainfall variability

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Optimal irrigation efficiency for maximum plant productivity and minimum water loss 40 (1999) 377

Rainfed rice

Rainwater, soil and nutrient conservation in rainfed rice lands in Eastern India 38 (1999) 45

Raised beds

Water management in raised bed systems: a case study from the Chao Phraya delta, Thailand 39 (1999) 1

Real-time

Real time operation of reservoir based canal irrigation systems 38 (1999) 103

Recharge

Interactions between trees and groundwaters in recharge and discharge areas – A survey of Western Australian sites 39 (1999) 91

Regional water management

Blue node concept: a regional water management strategy 40 (1999) 265

Remote sensing

Assessment of vine development according to available water resources by using remote sensing in La Mancha, Spain 40 (1999) 363

GIS tools applied to the sustainable management of water resources. Application to the aquifer system 08-29 40 (1999) 207

Regional application of one-dimensional water flow models for irrigation management 40 (1999) 291

Use of satellite data to estimate radiation and evaporation for northwest Mexico 38 (1999) 181

Research priorities

Priorities for irrigated agriculture 40 (1999) 25

Research strategy

Systems approaches to water management research 40 (1999) 3

Research

Annex 1: Water-use efficiency on irrigation systems: a review of research carried out under DFID' engineering research programme 40 (1999) 139

Reservoir operation

Real time operation of reservoir based canal irrigation systems 38 (1999) 103

Residual sodium carbonates (RSC)

Performance of sugarcane genotypes grown under sodic soil and water conditions 41 (1999) 1

Resource conservation

Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283

Reuse

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Revegetation

Interactions between trees and groundwaters in recharge and discharge areas – A survey of Western Australian sites 39 (1999) 91

Rice-wheat systems

Sustaining rice-wheat system productivity in the Indo-Gangetic plains: water management-related issues 40 (1999) 31

Rice

Causes of high water losses from irrigated rice fields: field measurements and results from analogue and digital models 40 (1999) 123

Increasing water-use efficiency in rice production: farm-level perspectives 40 (1999) 117

Water use and plant response in two rice irrigation methods 39 (1999) 35

Romania

Water users organisations 40 (1999) 83

Runoff

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41

SADC

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Saline groundwater

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Saline soils

Model for assessing impact of salinity on soil water availability and crop yield 41 (1999) 57

Saline water

Improved saline-water use under subsurface drip irrigation 39 (1999) 19

Salinity

A flood history weighted index of average root-zone salinity for assessing flood impacts on health of vegetation on a saline floodplain 39 (1999) 135

Dynamics of *Eucalyptus largiflorens* growth and water use in response to modified watertable and flooding regimes on a saline floodplain 39 (1999) 245

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Irrigation with saline water: benefits and environmental impact 40 (1999) 183

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Water use of grazed salt bush plantations with saline watertable 39 (1999) 169

Where to plant trees on cropping land for control of dryland salinity: some approximate solutions 39 (1999) 115

Salt accumulation

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Salt balance

Regional salt- and water-balance modelling for sustainable irrigated agriculture 40 (1999) 129

Salt tolerance

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Sapwood area

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Scheduling

A simple visual aid for sugarcane irrigation scheduling 38 (1999) 77

SCS Infiltration families

Dimensionless advance curves for infiltration families 41 (1999) 115

Seeding date

Efficient use of water in the southern region of Portugal: agronomic aspects 40 (1999) 275

Semi-arid areas irrigation

Analysis of uniformity of sprinkle irrigation in a semi-arid area 40 (1999) 315

Shallow water table

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Simulation

Hydrological modelling of a small watershed using MIKE SHE for irrigation planning 41 (1999) 149

- Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41
- Small volcanic islands**
Modelling the local climate in island environments: water balance applications 40 (1999) 393
- Smallholder farmers**
Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21
- Smallholder irrigation**
Water losses in smallholder irrigation schemes 40 (1999) 15
- Socio-economic benefits**
Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283
- Socioeconomic impacts**
Irrigated agriculture in the Guadiana River high basin (Castilla-La Mancha, Spain): environmental and socioeconomic impacts 40 (1999) 171
- Sodic water**
Performance of sugarcane genotypes grown under sodic soil and water conditions 41 (1999) 1
- Soil drying**
Water use efficiency of controlled alternate irrigation on root-divided maize plants 38 (1999) 69
- Soil electrical conductivity**
Drainage effects on spatial variability of soil electrical conductivity in a vertisol 38 (1999) 213
- Soil moisture sampling**
On-farm sampling density and correction requirements for soil moisture determination in irrigated heavy clay soils in the Gezira, central Sudan 41 (1999) 91
- Soil moisture**
Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41
- Soil phosphorus**
Sources of phosphorus exported from an agricultural watershed in Pennsylvania 41 (1999) 77
- Soil salinity**
Hydraulic gradient reversal by trees in shallow water table areas and repercussions for the sustainability of tree-growing systems 39 (1999) 153
- Soil water**
Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147
- Spatial variability**
Drainage effects on spatial variability of soil electrical conductivity in a vertisol 38 (1999) 213
- Spatial variability**
Modelling the local climate in island environments: water balance applications 40 (1999) 393
- Sprinkler irrigation**
Modeling crop yield as affected by uniformity of sprinkler irrigation system 38 (1999) 135

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235
- Sprinkler**
Irrigation management in arid areas affected by surface crust 38 (1999) 21
- Stable isotopes**
Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187
- Standards**
The impact of agriculture on ground water quality in Slovenia: standards and strategy 40 (1999) 235
- Stochastic**
Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1
- Stomatal conductance**
Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

Strategy

The impact of agriculture on ground water quality in Slovenia: standards and strategy 40 (1999) 235

Stress degree days

Assessment of plant-extractable soil water in castor beans (*Ricinus communis* L.) using infrared thermometry 39 (1999) 69

Subhumid area

Management of water consumption in agriculture A model for the economic optimisation of water use application to a sub-humid area 40 (1999) 303

Subsurface drip irrigation

Improved saline-water use under subsurface drip irrigation 39 (1999) 19

Subsurface irrigation

Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283

Sugarcane genotypes

Performance of sugarcane genotypes grown under sodic soil and water conditions 41 (1999) 1

Sugarcane yield

Performance of sugarcane genotypes grown under sodic soil and water conditions 41 (1999) 1

Sugarcane

A simple visual aid for sugarcane irrigation scheduling 38 (1999) 77

Supplemental irrigation

Irrigation management in arid areas affected by surface crust 38 (1999) 21

Water-yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Surface crust

Irrigation management in arid areas affected by surface crust 38 (1999) 21

Surface irrigation

Dimensionless advance curves for infiltration families 41 (1999) 115

Surface storage

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41

Swelling clay soils

On-farm sampling density and correction requirements for soil moisture determination in irrigated heavy clay soils in the Gezira, central Sudan 41 (1999) 91

System variables

Assessment of the performance of border and furrow irrigation systems and the relationship between performance indicators and system variables 40 (1999) 353

Systems approaches

Systems approaches to water management research 40 (1999) 3

Tanzania

Irrigation water prices for farmer-managed irrigation systems in Tanzania: a case study of Lower Moshi irrigation scheme 38 (1999) 33

Technology transfer

Transfer of irrigation scheduling technology in Mexico 40 (1999) 333

Tie-ridges

Assessment of the effect of tie-ridging on smallholder maize yields in Malawi 41 (1999) 21

Tomato

Response of tomatoes, a crop of indeterminate growth, to soil salinity 38 (1999) 59

TOPOG

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Transpiration efficiency

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Transpiration

Growth and water use of *Eucalyptus camaldulensis* and *E. occidentalis* on a saline discharge site near Wellington, NSW, Australia 39 (1999) 229

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41

Water use and plant response in two rice irrigation methods 39 (1999) 35

Water use and salt accumulation by *Eucalyptus camaldulensis* and *Casuarina cunninghamiana* on a site with shallow saline groundwater 39 (1999) 205

Water use of grazed salt bush plantations with saline watertable 39 (1999) 169

Treatment

Wastewater treatment, renovation and reuse for agricultural irrigation in small communities 38 (1999) 223

Tree water use

Modelling the water balance of effluent-irrigated trees 39 (1999) 47

Tree water-relations

Transpiration and groundwater uptake from farm forest plots of *Casuarina glauca* and *Eucalyptus camaldulensis* in saline areas of southeast Queensland, Australia 39 (1999) 187

Trees

Hydraulic gradient reversal by trees in shallow water table areas and repercussions for the sustainability of tree-growing systems 39 (1999) 153

Interactions between trees and groundwaters in recharge and discharge areas – A survey of Western Australian sites 39 (1999) 91

Where to plant trees on cropping land for control of dryland salinity: some approximate solutions 39 (1999) 115

Uniformity water distribution

Higher performance through combined improvements in irrigation methods and scheduling: a discussion 40 (1999) 153

Uniformity

Analysis of uniformity of sprinkle irrigation in a semi-arid area 40 (1999) 315

Modeling crop yield as affected by uniformity of sprinkler irrigation system 38 (1999) 135

Vegetation growth model

Optimal irrigation efficiency for maximum plant productivity and minimum water loss 40 (1999) 377

Vegetative barriers

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41

Vertical interval

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41

Vertisols

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Drainage effects on spatial variability of soil electrical conductivity in a vertisol 38 (1999) 213

Vietnam

Water users organisations 40 (1999) 83

Vine

Assessment of vine development according to available water resources by using remote sensing in La Mancha, Spain 40 (1999) 363

Volume balance model

Dimensionless advance curves for infiltration families 41 (1999) 115

Waste material

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Water allocation

Computer optimisation for better water allocation 40 (1999) 65

Irrigated agriculture – adding value through technology and management reform 40 (1999) 89

Water and solute transport

Model for assessing impact of salinity on soil water availability and crop yield 41 (1999) 57

Water availability

Model for assessing impact of salinity on soil water availability and crop yield 41 (1999) 57

Water balance components

Rainwater, soil and nutrient conservation in rainfed rice lands in Eastern India 38 (1999) 45

Water balance model

Water use and salt accumulation by *Eucalyptus camaldulensis* and *Casuarina cunninghamiana* on a site with shallow saline groundwater 39 (1999) 205

Water balance modelling

Modelling the effects of soil moisture and solute conditions on long-term tree growth and water use: a case study from the Shepparton irrigation area, Australia 39 (1999) 283

Water balance

A simple visual aid for sugarcane irrigation scheduling 38 (1999) 77

Comparison between mechanistic and functional models for estimating soil water balance: deterministic and stochastic approaches 38 (1999) 1

Hydrological modelling of a small watershed using MIKE SHE for irrigation planning 41 (1999) 149

Regional salt- and water-balance modelling for sustainable irrigated agriculture 40 (1999) 129

Water use and plant response in two rice irrigation methods 39 (1999) 35

Water conservation

Water conservation practices for a river valley irrigated with groundwater 38 (1999) 235

Water division technology

The failure of adjustable irrigation technology, the options for change and the consequences for research 40 (1999) 101

Water harvesting

The micro-catchment water harvesting technique for the plantation of jujube (*Zizyphus mauritiana*) in an agroforestry system under arid conditions 41 (1999) 139

Water loss

Optimal irrigation efficiency for maximum plant productivity and minimum water loss 40 (1999) 377

Water losses

Causes of high water losses from irrigated rice fields: field measurements and results from analogue and digital models 40 (1999) 123

Groundwater aspects: losses are inevitable but re-use is possible? 40 (1999) 111

Water losses in smallholder irrigation schemes 40 (1999) 15

Water management research

Systems approaches to water management research 40 (1999) 3

Water management

Application of belief networks to water management studies 40 (1999) 51

Causes of high water losses from irrigated rice fields: field measurements and results from analogue and digital models 40 (1999) 123

Developing procedures for the sustainable use of mangrove systems 40 (1999) 59

Economic instruments for improving water use efficiency: theory and practice 40 (1999) 77

GIS tools applied to the sustainable management of water resources. Application to the aquifer system 08-29 40 (1999) 207

Increasing water-use efficiency in rice production: farm-level perspectives 40 (1999) 117

Limitations of water-control technology 40 (1999) 95

Management of water consumption in agriculture A model for the economic optimisation of water use application to a sub-humid area 40 (1999) 303

Water management in raised bed systems: a case study from the Chao Phraya delta, Thailand 39 (1999) 1

Water policies

Irrigated agriculture in the Guadiana River high basin (Castilla-La Mancha, Spain): environmental and socioeconomic impacts 40 (1999) 171

Water quality

Irrigation with saline water: benefits and environmental impact 40 (1999) 183

Water re-use

Groundwater aspects: losses are inevitable but re-use is possible? 40 (1999) 111

Water requirements

Response of okra (*Abelmoschus esculentus* (L.) Moench.) to drip irrigation under mulch and non-mulch conditions 38 (1999) 91

Water use and plant response in two rice irrigation methods 39 (1999) 35

Water savings

Sustainable and effective irrigation through a new subsoil irrigation system (SIS) 40 (1999) 283

Water scarcity

Blue node concept: a regional water management strategy 40 (1999) 265

Water tables

Hydraulic gradient reversal by trees in shallow water table areas and repercussions for the sustainability of tree-growing systems 39 (1999) 153

Interactions between trees and groundwaters in recharge and discharge areas – A survey of Western Australian sites 39 (1999) 91

Water use efficiency

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Economic instruments for improving water use efficiency: theory and practice 40 (1999) 77

Improving water use efficiency as part of integrated catchment management 40 (1999) 249

Water use efficiency of controlled alternate irrigation on root-divided maize plants 38 (1999) 69

Water–yield relations and optimal irrigation scheduling of wheat in the Mediterranean region 38 (1999) 195

Water use

Efficient use of water in the southern region of Portugal: agronomic aspects 40 (1999) 275

Water users

Water users organisations 40 (1999) 83

Water value

Irrigated agriculture – adding value through technology and management reform 40 (1999) 89

Water-control technology

Limitations of water-control technology 40 (1999) 95

Water-saving cultivation

Water use efficiency of controlled alternate irrigation on root-divided maize plants 38 (1999) 69

Water-use efficiency

Annex 1: Water-use efficiency on irrigation systems: a review of research carried out under DFID' engineering research programme 40 (1999) 139

Increasing water-use efficiency in rice production: farm-level perspectives 40 (1999) 117

Watershed modelling

Hydrological modelling of a small watershed using MIKE SHE for irrigation planning 41 (1999) 149

Watertable

A flood history weighted index of average root-zone salinity for assessing flood impacts on health of vegetation on a saline floodplain 39 (1999) 135

Water use and salt accumulation by *Eucalyptus camaldulensis* and *Casuarina cunninghamiana* on a site with shallow saline groundwater 39 (1999) 205

Wheat

Analysis of water use by wheat grown on a cracking clay soil in a semi-arid Mediterranean environment: weather and nitrogen effects 38 (1999) 147

Water-yield relations and optimal irrigation

scheduling of wheat in the Mediterranean region 38 (1999) 195

Yield

Study on the performance of contour vegetative barriers in an arid region using numerical models 41 (1999) 41
